SOFTDROIT

### About us

With over a decade of experience delivering successful development and modernization projects, our team has developed deep business insight and strong technical expertise. We combine industry knowledge with advanced technologies to build reliable and efficient solutions.

Our core technology capabilities include IT Security, Cloud Computing (SaaS), Quality Assurance & Testing, Selenium, Maven, Web Application Development, Big Data Analytics, and SOAP & Microservices.

### Softdroit Technology

- Expertise in developing custom software and technology products
- Offering end-to-end Software Development Life Cycle (SDLC) services with 24x7 support
- Strong capabilities in Business Analysis and IT Consulting
- A team of 100+ professionals supporting commercial enterprises, federal and state agencies, and start-ups

**Delivering Enterprise Business Solutions through innovative technologies**

IT Security, Web Application Development, Business Process Automation, Cloud Computing, and Data Analytics.

## Our Advantage

- ▣ Passionate about tackling challenges and solving complex problems
- ▣ Communication-driven approach with clearly defined milestones using Agile and Scrum methodologies
- ▣ Lean requirements, rapid prototyping, and proven frameworks combined with a results-oriented, get-things-done mindset.

## Cutting-Edge Methodologies

- ▣ Agile Development
- ▣ Iterative Development
- ▣ Test-Driven Development (TDD)
- ▣ Waterfall Model
- ▣ Rapid Application Development (RAD)

## Core Capabilities

Design & Development

Reverse Engineering

Artificial Intelligence

Machine Learning

UiPath Automation

Prototyping

Data Management

Verification, Validation  
& Integration

Configuration Management

Programmatic Planning

Quality Assurance

Systems Engineering

Total Lifecycle Logistics

Risk Mitigation

## Differentiators

**Holistic Approach:** A comprehensive understanding of business and technology needs, with strong expertise in technical documentation including scope, requirements, specifications, and project planning.

**Diverse Skill Sets:** A multidisciplinary team of Software Architects, Senior Developers, UI/UX & Web Designers, QA Specialists, Cloud Engineers, and AWS Developers.

**Customer-Centric Mindset:** We are committed to exceeding client expectations and achieving the highest levels of customer satisfaction.

**Efficient Execution:** Our long-standing team collaboration enables us to deliver projects quickly, accurately, and efficiently.

**Efficient Execution:** Our long-standing team collaboration enables us to deliver projects quickly, accurately, and efficiently.

**Proven Experience:** Extensive software development experience allows us to build integrated, scalable, and robust solutions with an optimal cost-performance balance.

**Cost Value:** We focus on delivering measurable results by helping clients identify and achieve meaningful cost savings through our services.
